ALVEUS

Quality & Innovation

Kovinoplastika Lož with its brand **ALVEUS** is one of the largest and most successful European suppliers of kitchen sinks and related equipment, which boasts a 69 year tradition.

It is an international company, which has earned its enviable position in the kitchen equipment market by pursuing the highest quality standards, keeping pace with modern design trends, and being a flexible and reliable business partner.

Due to its products, which boast not only outstanding quality but also an excellent quality/price ratio, Alveus is quickly and effectively strengthening its market positions in Slovenia as well as in other European countries.

Find out more about Alveus on www.alveus.si.

The kitchen has become the centre of modern interiors, the heart of any home, the place where family ties are woven. Alveus presents sinks and other kitchen products, which can bring your kitchen in line with the latest trends.

When it comes to innovation, material and manufacturing quality, and constant search for new solutions to increase the comfort and functionality of our products, we make no compromises. This is why Alveus sinks rank among the top modern design solutions, and boast quality that exceeds similar products in many respects.

The Alveus brand products are designed for modern high-end kitchens. In today's interiors, the boundaries between the kitchen and living area are becoming blurred, while minimalist, refined and sophisticated design solutions have begun to gain ground.

With their large, clean surfaces and innovative approach to space use, Alveus sinks perfectly match the latest furniture and architectural ideas. They are made for kitchens just like that, as their outstanding design and functional qualities exceed the existing standards in many ways.

The carefully designed solutions will enhance your food preparation and kitchen work efficiency. Alveus sinks are manufactured from top-quality modern materials, which ensures easy and environment-friendly maintenance and decomposition.

Karat

Glass kitchen sinks will bring creative elegance into your home. These sinks are made for most demanding users who require not only uncompromising quality but also cutting-edge design, and who dare to try something different. Karat kitchen sinks are made of high-quality stainless steel and 8 mm thick tempered glass. A high-end look is upgraded with extra functionality, with a Pop-up draining system that enables remote water-draining management.

Premium Stainless Steel

Alveus stainless steel kitchen sinks are available in three surface finishes, all of the high quality but with a different appearance.

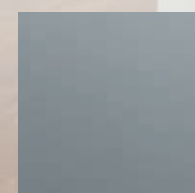

The stainless steel surface of Alveus sinks can be **smooth and semi-shiny (NAT)**. After brushing the surface in an only straight direction, we obtain **brushed (BRS)** stainless steel which appears in a bit mat dark and elegantly scratched surface. Brushing the sink surface in various direction gives it a silky glow with **satin finish (SAT)**.

Intermezzo

Intermezzo is a very attractive kitchen sink with innovative, aesthetic horizontal overflow, which increases the volume of the bowls by as much as 40%. The uniqueness of the Intermezzo kitchen sink is the above-average volume (Full Volume), which makes it easier for you to clean baking trays and large dishes. Intermezzo is reversible with the possibility of two installation methods - classic inset (I) or elegantly undermount (U).

Atrox

Atrox is not only attractive but also a very functional kitchen sink. The design of Atrox kitchen sinks is minimalistic and timeless. However, in order to make work in the kitchen easier and pleasant, we upgraded the kitchen sink with a thoroughly thought middle level, which makes Atrox sinks very versatile.

All Atrox models can be installed as a classic inset [I] or elegantly undermounted [U].

What to pay attention to when choosing a kitchen sink

When buying a kitchen sink it is recommendable to, consider the following:

CABINET WIDTH – first of all, you must know the size/width of the sink cabinet, which influence, on your choice.

Our sinks are classified according to the minimum required cabinet width, namely 400, 450, 500, 600, 800, 900 and 1000 mm.

Smaller kitchen sinks can be accommodated by larger cabinets, but never vice versa. For instance, a sink dimensioned to fit a cabinet of 400 mm minimum width can also be installed into any cabinet exceeding the designated size.

SINK ORIENTATION – once you have determined the cabinet width, you have to determine the orientation of the sink on the kitchen worktop. You can choose among left-hand, right-hand and reversible sink designs. Most of the sinks are reversible, so you don't need to worry about the orientation upon your purchase, as you can turn the sink with its main bowl(s) according to your needs.

left-hand
main bowl on the left, drainer on the right

right-hand
main bowl on the right, drainer on the left

reversible
any arrangement possible;
bowl on the left or on the right

In the next step, you can choose among

VARIOUS MATERIALS (stainless steel, tempered glass or composite material),

VARIOUS INSTALLATION TYPES (inset, flush mount, flat mount or undermount)
